71, Fenchurch Street, E.C.3.

8th February, 1946.

Dear Sirs,

I have to acknowledge the receipt of your letter of the 24th ultimo respecting the case of the motorship "ESSO NYBORG" the contents of which have been carefully noted. I think it well, however, to draw your attention to Clause 1 in Circular No.1284 in which it is stated that the full length of the double bottom is to be recorded in the Register Book irrespective of the uses to which the different parts may be put and I shall be glad if you will be guided accordingly in future cases when reporting the lengths of double bottoms.

Yours faithfully,

The Surveyors,
