

"PENTHIEVRE"  
(ex Cassard)  
-----

Nts. 15  
-----

Before this case receives consideration IT IS SUBMITTED the Surveyor be requested to supply the thicknesses of shell plating from drilling on the enclosed drilling sheet, and return same to this Office at his earliest convenience. X

- At the same time he should be requested to advise :-
- 1) the length and mean diameter of chain cable on board;
  - 2) whether all the indented shell plates etc. (p & s) have been dealt with at this time;
  - 3) whether the sternframe upper post (E.W. & reinforced) and lower scarp (E.W. 5.45) were specially examined and found efficient; and
  - 4) whether the bower anchor supplied 9.45 was verified with the Anchor Certificate. X

He should also forward for record purposes plans of the deckhouses as modified.

It is concluded ALL the requirements of a Periodical Special Survey (D) have been complied with, but he should confirm this. X
