Dear Sir,

M.S. "LAURITS SWENSON".

The Owners have written to this office regarding this ship, as they are contemplating the sale of same, either to Japan or the U.S.A. They would therefore appreciate your comments upon whether or not authorisation could be given to sail the vessel loaded, to a port in Japan or U.S.A., after a Docking Survey and Comprehensive General Examination would here before the vessel leaves.

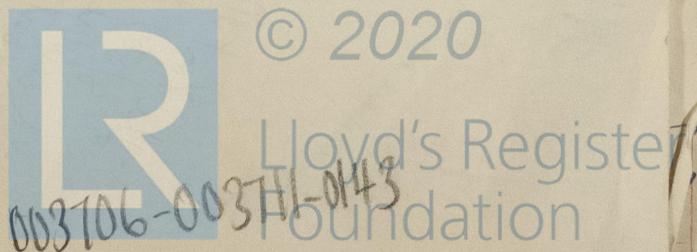

As you are no doubt aware the Special Survey was due in October, 1961 and a postponement for one year was granted but the vessel was laid up here on the 26th August, 1962, and has not sailed since.

Your comments would be appreciated so that the Owners can be informed.

Yours faithfully
THE SURVEYORS
