Reference

Dear Sir,

Twin Sc. S/T. "LIVERPOOL"

This ship is now undergoing Special Survey and conversion of tweendecks, at sides of trunk, to summer tanks, at La Spezia.

It has been noted, during these surveys, that the O.F. bunkers forward and aft of the cargo tanks are not separated from the same by means of cofferdams, and in view of Circular 1994 we should be glad to be informed if this arrangement may be considered satisfactory.

Yours faithfully,

The Secretary,  
LONDON.

SHIP

R. J. A.

vs Gen 11.9 SS LMC Altus

It is submitted that there are a few fuel bunkers on cargo tanks of this means of transport. The surveyors be informed cases where the oil is not reboated from the particular existing arrangements. There is no objection.
