

WOKINGHAM COPY.

4th April, 1942.

S
Dear Sir,

With reference to Glasgow Report No.65176 on the steamer "ZAMALEK", I think it well to remark it is concluded that the requirements of Section 20 of the Rules, so far as applicable, have been complied with, but I shall be obliged if you will request the Surveyors to confirm this. At the same time they should be requested to furnish the amended lengths and capacities in tons S.W. of the double bottom tanks and combined oil fuel tanks (MT) and double bottom tank for record in the Register Book.

I am, Dear Sir,
Yours faithfully,

The Secretary,

GLASGOW.
