Lloyd's Register of Shipping.

Port OF LIVERPOOL.

17th February, 1945.

This is to Certify that

XX

the undersigned Surveyor to this Society did at the request of the Water Tube Boilers No. 2282 made by Messrs. Cammell Laird & Co. Ltd, at Birkenhead and marked as below, have been surveyed during construction by the undersigned.

The material has been tested by the Society's Surveyors as required by the Rules; the scantlings are in accordance with the plans approved for a working pressure of 225 lbs. per square inch and the workmanship is good. The boilers have been tested in my presence on the 22.9.44 and 14.12.44, by hydraulic pressure to 387 lbs. per square inch, and were found tight and sound in every respect at that pressure.
