

*Await Rev. 4/19*  
*Empire Hope*  
*Empire force*  
MESSRS. HARLAND & WOLFF'S YARD NOS. 1050/1.

Refrigerating Machinery.

IT IS SUBMITTED the Glasgow Surveyors be informed that the question of the hanger bolts in the refrigerated spaces in these vessels has been referred to the Owners, who state that they require these bolts to be fitted in all the spaces, including those outside the chilled meat spaces, and that arrangements have been made with Messrs. J. & E. Hall, Ltd. to fit black bolts - painted if it is impracticable to have them galvanized.

IT IS FURTHER SUBMITTED the Glasgow Surveyors be informed, with reference to the subject of fees and Mr. Edgar's remarks regarding the practice adopted in Belfast during R.M.C. surveys, it is understood that the specification is only used for the purpose of seeing that the requirements of the Rules are carried out, but it is not regarded as part of ~~the~~ *the surveyors'* ordinary duties to see that each and every detail of the specification is complied with.

It appears ~~that~~ it is in regard to details, as well as Classification requirements, that the supervision of the specification is now desired, and in these circumstances it is considered that an addition of 25% should be made to the scale of fees.
