Dear Sirs,

M.S. "WAIRANGA"

With reference to the classification in this Society's Register Book, I would inform you that as a result of a survey carried out at Rotterdam in May, this vessel's class has been continued subject to the starboard main engine No. 1 lower exhaust piston yoke being replaced or machined in way of the tie rod nut landings before the end of last month <sup>and</sup> when, in the circumstances, I shall be glad to learn what arrangements are proposed to be made for this matter to receive attention.

I take this opportunity to remind you that the Auxiliary Boiler Survey will become due at the end of October.

Yours faithfully,

Clerk to the  
Classification Committee
