LONDON, S.W.1.

6 March, 1926.

Gentlemen,

Application has been made to this Department for your completion certificate in respect of Concrete Tug Engine No.13751 constructed by Messrs.Davy Paxman and Company, Colchester, to the order of the Shipping Controller.

This certificate has never been received from you, and I presume that payment in respect of the survey, including the cost of the certificate, was made to you by the builders at the time of construction, and such cost would have been reimbursed to the builders by this Department.

I shall be much obliged if you will be good enough to forward me the certificate with the least possible delay.

I am, Gentlemen,  
Your obedient Servant,
