OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

Clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:— remain as Classed in the Register Book without fresh record of Docking; "to remain as Classed and to have record of drydocking 1.55"; or "to remain as Classed and to have record of drydocking", and the notation of S.S. . . . 1.55"

is ship, so far as now seen is eligible in my opinion to remain as classed with fresh record of DS 7.57 subject to all conditions at present held to the ship's class being dealt with as previously recommended.
