LLOYD'S REGISTER OF SHIPPING

COPENHAGEN 13th July, 1925.

The Secretary,  
LONDON.

Dear Sir,

Enclosed please find for the consideration of the Committee midship section for Nakskov No.26 & 28 shewing extra stiffening proposed by the Builders in order to close the tonnage opening and secure a draft of 26' - 0"

As the material affecting this alteration for these two vessels is nearly all worked, the builders would like only such amendments as would permit of the already worked material being used.

I am, Dear Sir,

Yours faithfully,

Signed:- C.B. Scorer.
