

Motorship "MARIA VERONICA"

Mr. Barder of Messrs. Lyon, Lohr & Sly Ltd. Lloyd's Brokers, whose client is the Owner of this ship, has telephoned today to enquire why the ship has not yet been assigned classification.

Mr. Barder has explained that the ship is now a C.T.L. and that he is in the awkward position of having to convince the various Underwriters concerned that the ship is entitled to Lloyd's Register Class.

I have explained to Mr. Barder that class has not been assigned because we have been awaiting further information on the case from the Society's Surveyors in America, but that this information has now come to hand and we are in a position to assign class.

intend Mr. Barder asks that we let him know the manner in which we ~~are entitled~~ to publicize the information that the ship is classed so that he can advise the various Underwriters concerned.
