

Lloyd's Register of Shipping.

Willemskade, 11^B,

Rotterdam, 10th of May 1932.
(Postbox 701.)

Dear Sir,

The Owners, Messrs, the Stoomvaart My
"NEDERLAND" have sent us plans of deeptank centre line
bulkheads with proposed strengthening for their M vessels.

They state that in case they decide to carry out a
rearrangement in these vessels it will be necessary for the
deeptank centre line bulkheads to be retested and they
propose to bring them up in line with the end bulkheads of
the deep tanks, so as to have them approved for carrying
oil as cargo in these tanks.

They further state that they also intend to have oil
carried as cargo in the forepeak tank.

The plan referred to has been sent in duplicate and
I shall be pleased to hear your remarks.

I am, Dear Sir,

Yours faithfully,

encl.

The Secretary,
London.
