Telegrams: Surveyor

The Secretary,
LONDON.

Dear Sir,

M.S. "ORESTES"

In reply to your letter of the 17th July 1963, the examination of the Port Main Engine No.8 cylinder cover has now been carried out, and the Auxiliary Boiler Survey has been commenced and will be completed before the vessel leaves this port.

The Owners Local Superintendents have informed us however, that on the vessel's completion of discharging cargo at this port, it will sail to Japan to be broken up.

Yours faithfully,

FOR THE SURVEYORS.

MR

Min Holey
