And.....

Dear Sir,

M/V "BRUNA"

Further to your letter of the 21st May last regarding our First Entry Report on the above vessel we have to confirm that a hand driven compressor with connections to the starting air bottles has now been placed on board.

An additional bilge pump has also been obtained and placed on board, but as the vessel left this port hurriedly to be handed over to her new Owners at Tangier, time did not permit this to be fitted in place.

We have accordingly issued amended Interim Certificates copies of which are enclosed.

Yours faithfully

The Secretary  
London
