

Steamship "GEMMA"

Mr. Webb of Shell Tankers Ltd., telephoned today stating that this ship is being sold to Japan for scrap. She is at present at Sambu but the Owners would like to take her to Bangkok to pick up a cargo for Japan.

Because of difficulties in getting a new crew at Singapore, it is desired to take the ship direct to Bangkok and to carry out, at that port, any work which may be required for the issue of a certificate for the voyage to Japan.

Mr. Webb requires an indication of what the Society's requirements will be, both from the classification and Loadline points of view.
