Dear Sirs,

R.

JMC /BN

S.S. "GEMMA"

With reference to the classification in the Society's Register Book, I would inform you that the machinery class of this vessel is at present subject, inter alia, to the port and starboard Main Engine L.P. cylinders (Metalocked 2.63) being specially examined by the end of this month, and I shall be glad to learn what arrangements are proposed to be made for this item to be dealt with.

The Main Boiler Survey becomes due at the end of this month and your intentions regarding this inspection will also be appreciated in due course.

I shall also be glad to learn if you are in a position to let me have any further information regarding the supply of a bower anchor for this vessel.

Yours faithfully,

Clerk to the  
Classification Committee.
