Sunderland, 25th March, 1948

ANSO.....

Dear Sir,

s.s. "MATADIAN".

We are to-day forwarding our First Entry Report
(Sld. No. 34864) on the above vessel.

This ship has been constructed for the dual
purpose of the carriage of dry and oil cargoes; approximately
50% of the structure is designed for the carriage of petroleum
or vegetable oils in bulk.

In the circumstances, we shall be glad to learn what
increase is to be made to the scale fee for the special survey
of the hull during construction. The 1945 scale is
applicable in this case.

Yours faithfully,
THE SURVEYORS,
PER:

Alborley

The Secretary,
