ft ins

Report 10 attached.

Was a damage report made by anyone else? If so, by whom?

AND REPAIRS AS PER RULE FOR DAMAGE: Stated to have occurred on the 17th February 1960 at Princes kland, while berthing ship, due to contact with wharf.

Damage confined to set in shell plates, starboard side amidships.

FOUND

RECOMMENDED

6 starboard L12, M12, M13, N11 & 12 set in. in way set in. 6 beam knees in way buck- L1 rivets at L strake and M strake landing strake landings sprung. Frame shell rivets way. 3 side scuttles in way of set in buckled and glass fractured.

That the set in section of set in shell plates L12, M12 & 13, N11 & 12 be cropped and renewed. That the buckled frames be cropped and renewed or cropped, faired and refitted. That the buckled beam knees be removed, faired and refitted. That the buckled side scuttle frames and glasses be renewed.

The following temporary repairs have now been carried out:-

All sprung rivets and seams in way of set in shell plates and frames now sealed by welding. beam knees faired in place and welded to frames. The 3 side scuttles in way blanked off and welded.

On completion the temporary repairs were hose tested and proved tight.

It is recommended that permanent repairs be carried out at the next CONTINUATION OVER/OR SHEET 2, but not later than the end of June 1960.

been held on machinery of the Ship? No

Is Classification Certificate required? If so, to be sent to No

sent now, or when will it be sent? -

Has Interim Certificate been issued? Yes

OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

What alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:— "Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1,55"; or "to remain as Classed and to have record of drydocking notation of S.S. . . . 1,55".

This ship so far as now seen is eligible in my opinion to be continued as now classed with record of survey, subject to permanent repairs being carried out at the next Dry Docking, but not later than the end of June 1960, to set in shell plates starboard L12, M12, M13, N11 & 12, and internals subject as previously recommended.

A. Huntingford
Surveyor to Lloyd's Register of Shipping

A. HUNTINGFORD.
