B.

The Secretary,  
LONDON.

Dear Sir,

With reference to your classing letter dated the 26th ultm. relative to the m.s. "SKANSEN", Stockholm First Entry report No.5729, I beg to acquaint you that The Surveyors confirm that additional means are provided for circulating cooling water through the main engines. One cooling water pump is driven by the main engine and an additional independent cooling water pump driven by an electric motor is also fitted.

The Surveyors also state that the engine reported in their Report No.5628 is intended for driving the cargo oil pumps.

I am, Dear Sir,

Yours faithfully,

*J. G. Townsend*
