17 Battery Place,

New York, N. Y. 10004

18th August, 1964

AIR MAIL

The Secretary
LONDON

Dear Sir,

M. V. "JOAN"

Attached hereto is Jacksonville Report 2734, from which you will observe that a new donkey boiler was fitted on board, and that the Surveyor had no opportunity to examine and test the boiler, in accordance with the Society's Rules.

The Vapor Heating Corporation steam generator which has been fitted bears the Serial No. 11131, which would indicate that it is quite old, the current numbers running in the vicinity of 14-15,000.

In all the circumstances, the class has been continued, subject to the boiler being examined and tested as required by the Rules, and I shall be glad to have your comments before we write to the Owners on this matter.

Yours faithfully,

W. H. L. L. L.
Secretary to the
American Committee
