

## POSTPONED SURVEYS

se of the T.S.S. "MATILDE" No. 69731 in R.B.

ilt. 1926-10 Tonnage Owners

ss. Port of Registry

Last docking date 11.56

veys due Special Survey due 8.56. Modified S.S. held at Curacao in November 1956, and notation 'Mod.S.S. Cco.11.56(6 months)' assigned.

Screwshaft Survey port due 9.55. ) See Mr. McAfee's endorsement  
stbd. due 9.54 ) dated 7.11.56 \*

posed to be

arks. Much correspondence has taken place with the Owners and this case was last submitted to the Committee on the 6th November as a result of which a Modified Survey has been held for a limited period.

The Owners now state that owing to the Suez Canal affair this ship will be required for some 18/24 months after present expiry of the class and they therefore propose to submit the ship to Modified Special Survey at Curacao as opportunity offers with a view to further extension of class for 1½/2 years. The Owners further add that Boiler and other due surveys will be carried out as vessel comes in for annual drydocking and repairs.

\* Overdue Screwshaft Survey need only be insisted upon in the case of single screw ships unless the wear down of the stern bush is found excessive.

f Surveyors' recommendations

*Submitted Owners proposal might be approved provided a further Modified S.S. is held about the due date.*
