29th May, 1956.

Dear Sir,

M.S. "Skotaas"

We enclose one copy each of Profile and Sections of the proposed conversion of this tanker to an ore carrier.

The wing tanks will be used solely for water ballast and in order to retain the tanker draught the wash bulk heads in the wing tanks will be made watertight.

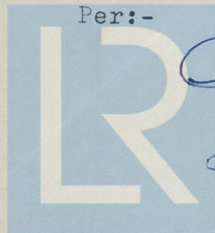

The longitudinal modulus is approximately $1.32 \times \text{L.L.S.}$

Yours faithfully,

The Surveyors,

Per:-

The Secretary,
London
