# LLOYD'S REGISTER OF SHIPPING

UNITED WITH THE BRITISH CORPORATION REGISTER

Port H A M B U R G

6th October, 1956

This is to Certify that I have

Part/

Surveyed the Boiler and Machinery of the M.V. "LOUIS LANTZ" ex "SKOTAAS", 8293 tons gross of Rotterdam, whilst the vessel

lay afloat and in drydock at Hamburg on the 15th May, 1956 and subsequently

and that I have transmitted to the Committee of Lloyd's

Register of Shipping, London, a Report stating that all

recommendations made by me in connection therewith have

been carried out to my satisfaction, and that I have

Recommended that the record of LMC CS 10.56, DBS 9.56,

TS CL p. N 8.56, s. 8.56, sps 10.56

~~be made in the Register Book in the case of this vessel when the survey has been completed.~~

Parts now examined:—

Propellers, both screwshafts and stern bushes, cocks, valves and outside fastenings of sea connections.

Both main engines, all cylinder covers, valves and valve gear, cylinder liners, pistons, gudgeon pins and bushes, connecting rods, crank-, thrust- and intermediate shafts, all with their bearings.

Both main engine driven air compressors.

Auxiliary condenser.

Both sea circulating pumps.

Both lubricating oil pumps.

p.t.o.

*(R.F. Kähler)*  
Engineer Surveyor to Lloyd's Register

certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."

004055-004061-0093
