

"SKOTAAS"

The Owners state that this ship will load a full cargo of crude oil in the Persian Gulf for U.K. - Continent, Bordeaux - Hamburg, and ask for a suitable arrangement of loading in terms of the Secretary's letter of 20/4/53.

On the assumption that a cargo of about 12,200 tons of crude oil, having a specific gravity of about .85 will be lifted, it will be possible to stow this cargo and leave one centre tank empty. This empty tank should be No. 4 or No. 5, whichever is most suitable for trim purposes.

If this arrangement does not suit the Master, then the matter will be reconsidered.

It is submitted the Owners be informed accordingly.
