Dear Sir,

" EFDEMON "

We enclose herewith our reports concerning the surveys held on the above mentioned ship,

Regarding to your letter to the Owners dated 3-10-67 a General Examination survey was recommended at this Port on the 13-10-67.

During this survey the Owners changed their mind regarding the sailing schedule of the ship.

The ship was partly discharged at this port and sailed afterwards to Bremen for discharging the remaining cargo.

The Bremen surveyors were informed regarding the loadline of the ship.

Upon return at this port a few days later a modified Special survey was carried out according to your telex no. 383 of 17-10-67.

The ship will now sail with a full cargo of fertilizer to Shanghai via Cape Good Hope and upon discharging from Shanghai to Formosa in ballast where the ship will be scrapped.

Yours faithfully,

The Secretary,
LONDON
