Lloyd's Register of Shipping.

Port

This is to Certify that I have

Surveyed the Boiler and Machinery of the Netherlands S.S.

"AMSTERDAM" ex "ROBERT FRUIN", 7229 tons gross, port of registry the Hague, whilst afloat and placed in dry dock at this port on the 17th of October, 1947 and subsequent dates with a view to classification with Lloyd's Register of Shipping.

and that I have transmitted to the Committee of Lloyd's

Register of Shipping, London, a Report stating that all

recommendations made by me in connection therewith have

been carried out to my satisfaction, and that I have

Recommended that the record of B.S.10-47 and LMC(with

late) subject to the undermentioned items (a-b-c-d) being dealt with at first available opportunity,

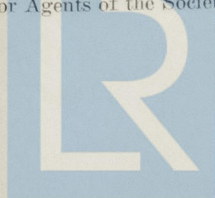

be made in the Register Book in the case of this vessel.

1. Automatic feedwater regulators to be fitted to main boilers
2. Cutterways with drainage arrangement to be made in boiler space in way of Port and Starboard settling tanks.
3. Spare impeller shaft for main circulating pump to be supplied.
4. Special Survey to be completed (A.P.T.O.)

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any of the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its officers or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."

To complete the Special Survey the following items remain to be examined:

1. H.P. cylinder with slide valve chest
2. All main engine crankshaft journals.
3. Main engine driven air pump & bilge pumps.
4. Thrust block and shaft
5. Main circulating pump.
6. Fan engine.
7. Main condenser.
8. Auxiliary condenser.
9. Both low and high pressure heaters.

This is to
