Our Ref: T.23/E. AN8D

Dear Sir,

S.M. "SEEKONK"

The classification survey work on this ship has now been completed. The relevant reports have been checked in accordance with British Corporation Rules and requirements and with the approved plans, and endorsed as satisfactory.

We therefore enclose for submission to the Classification Committee the following data:-

- 1) San Francisco survey report No. 8800 and provisional loadline and classification certificates.
- 2) San Diego damage repair report No. 178 and seaworthy certificate.
- 3) Liverpool N.S. survey report. Provisional loadline and classification certificates. Copy of Halifax letter of May 13 addressed to Montreal. Copy of list showing amendments to A.B. form LL.11.
- 4) American Bureau form LL.11 and British Corporation form LL.4C.
- 5) Hull and machinery particulars sheets, and capacity plan.

It is noted from the Montreal surveyor's letter of May 23 (copy of which was sent to the London office) that official loadline certificates are to be issued by them and a copy sent to this office. This has not so far been received.
