Dear Sirs,

Attention: Clerk to the Classification
Committee.

S.S. "WINWAR"

We thank you very much for your letter dated 21st Nov., 1962 enquiring about the coming Special Survey due next January.

In reply, we wish to inform you that as the subject vessel is now under one year time charter until October 1963 to PELNI, Djakarta, for trading only within Java-Sumatra Waters and that her next annual Load Line Survey will be also due on 26th Feb., 1963, we would therefore wish to request for one year extension of your Class and propose to have the Survey to be done in Djakarta about the end of Feb., 1963 so that her annual Load Line Survey could be done simultaneously at the same time.

For your information, this vessel came out of docking survey at The Taikoo Dockyard here only in March 1962 with her tailshaft and propellor withdrawn and inspected by your Surveyors and also very extensive repairs works, both on decks and in the Engine Room including part of her next engine survey, were already carried out during the two months of her stay in port for the last annual survey. As this vessel has been sailing through Palembang River weekly, which is fresh water, her bottom is as clean as just out of dry docking and she has been doing 10 knots or better all this time.

Trusting that our above proposition will receive your kind consideration and approval.

Yours faithfully,

WINDWARD SHIPPING CO. LTD.
