# Lloyd's Register of Shipping.

71, Fenchurch Street, E.C.3.

15th July, 1946.

Dear Sir,

A Classification of the motor vessels "ACTUALITY" and "ADAPTITY" is being withheld pending the fitting of a larger diameter screwshaft on account of excessive stresses. It is understood that these shafts are now ready for fitting at Yarmouth, and that the Owners will arrange for this to be done at the first opportunity, and I shall, therefore, be glad if you will kindly give the cases the necessary attention.

Yours faithfully,

Secretary.

Mr. H.Y. Bell,  
IPSWICH.
