LLOYD'S REGISTER OF SHIPPING

Port HALIFAX, N. S.

September 30, 1960

This is to Certify that

L. M. MATHERS

the undersigned Surveyor to this Society did at the request of

Halifax Shipyards Ltd., attend at their plant at Halifax, N. S. on the 23rd September, 1960 and previously for the purpose of examining one screwshaft and one tubeshaft which had been removed from the T.S.S. "LIVERPOOL ROVER", each shaft is fitted with a bronze liner and the portion of each shaft exposed to sea water clear of the coupling is protected by a Neoprene covering.

The corroded periphery of the coupling of each shaft was built up by electric welding and each shaft was placed in the lathe where the coupling was machined to size.

The screwshaft and tubeshafts were mated together and the coupling bolt holes were reamed and new coupling bolts made and fitted.

On completion of all machining, the Neoprene covering was part renewed in way of each coupling.

During the above reconditioning, each shaft was examined at various stages and found satisfactory and it is considered that they are eligible to be installed as spare shafts in the T.S.S. "LIVERPOOL ROVER".

For purposes of identification, the counter bore of each coupling was stamped

Starboard Tailshaft

Recon. Hfx. 9/60
LLOYDS
23/9/60
HFX.

Starboard Tube Shaft

Recon. Hfx. 9/60
