Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

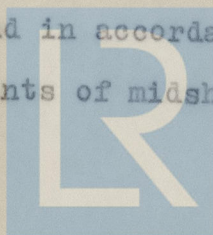

15th March, 1927.

Dear Sirs,

I am in receipt of your letter of the 12th instant together with your freeboard report on the s.s. "LALANDIA", Messrs. Nakskov's No.29, and with regard thereto I have to inform you that the information required on the back of the freeboard report form is that of the bulkheads between the upper and second decks when a tonnage opening is fitted, and not the particulars of erections on the upper deck, and I shall therefore be glad if you will forward an amended report giving the required information. The particulars of all hatchways on the upper and second decks should be reported.

You should also shew clearly if the tonnage is measured to the top of the ceiling which is laid on grounds and, if so, give the depth from top of grounds to the top of the second deck beams at the centre.

At the same time I have to remind you of Circular No.1483, issued last month, and in accordance therewith you should forward the required prints of midship section and

general arrangement plans shewing the vessel as built.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

COPENHAGEN.
