Ref:- Repairs

D

Will you please let us know at your earliest convenience the work and surveys which should be carried out on the 'AREVAL' (ex. Greenland) in order to re-class her as a tanker for carrying ^{petroleum} products; apart from this, we would also like to be furnished with information regarding work and required surveys to be carried out to retain her class as a vessel for carrying grain.

We require the above in order that the necessary measures be taken for consideration of the care and definition of the vessel to be given in the A.R.C. - ??

Thanking you in anticipation for the respective lists and surveys, they to remain Dear Sir.
