Respecting the omission of the transverse bulkhead in m.s. "STENSBY"  
Messrs. Eriksbergs Mek. Verkstads A.-B. N:o 221.

As it is necessary for the insertion in the Register Book of a notation of "Intermediate bulkhead in after hold dispensed with" that the Owners reason for desiring same be stated we beg herewith to inform you that the omission of the bulkhead in question is desired on account of the vessel being intended for the timber trade and a bulkhead in the after hold would interfere with the stowage of long timber.

I am, Dear Sirs,

Yours faithfully,  
A/S MOTOTRAMP.
