Enclosures

Dear Sirs,

s.s. "BOKEFORS"

In confirmation of my telegrams to you yesterday and today, I would inform you that the preliminary report of survey at Gothenburg was received here yesterday and has now been checked.

As a result it is agreed that, provided the general examination and boiler repairs now being effected are satisfactory, the vessel will be eligible for a class of 100A1 With Freeboard, subject to annual examination; also subject to 90 fathoms of 4 1/2" stream wire being supplied and the main cables for the steam generators being brought up to the Rule requirements as soon as possible.

On receipt of the Surveyors' final report I will arrange for the necessary certificates to be sent to you through the Gothenburg Office.

Yours faithfully,

Assistant Clerk to
the Classification Committee

Messrs. A/B Rederi Clipper,
67, N. Bulltoftavagen,
MALMO,
Sweden.
