2 ENCLOSURES.  
-----

19th January, 1926.

Dear Sirs,

I am in receipt of your letter of the 14th instant forwarding freeboard report on the S.S. "LOUISIANA", and with regard thereto I enclose the usual printed letters setting forth the amended freeboards which have been assigned to this vessel, subject to the tonnage opening in the shelter deck being closed by efficient temporary covers, to the openings in the deck for scuppers leading to the bilges being closed by riveted plates, and to efficient battening arrangements and tarpaulings being fitted to the upper (2nd) deck hatchways, as required by the rules.

I think it well to remind you that as freeboard is a condition of the vessel's class, the freeboards marked on her sides must not be less than those now assigned by the Committee of this Society.

At the same time I have to confirm the following cablegrams which have passed between us regarding the case, namely: -
