# Lloyd's Register of Shipping.

Report N° 1717

Port LE HAVRE

23rd February 1960

This is to Certify that

Leslie S.SIMS.

undersigned Surveyor to this Society did at the request of  
H.G. POUNDS, Portsmouth, through his Agents, attend on board the  
steel screw tanker " WAVE CONQUEROR "

employed and classed as a Storage vessel, moored afloat at  
Havre on the 8th of February 1960 and on subsequent dates, for  
the purpose of carrying out an examination of the vessel afloat, in  
order to ascertain that the vessel remained generally in the  
condition to comply with the notation applied.

The survey was carried out entirely without prejudice as to  
terms and conditions of insurance and similarly without prejudice as  
to any agreement concerning arrangements for towing.

At my examination the vessel was found to be in good order,  
with regard to hull above water line with all hatches and covers  
closed and watertight doors in casings and superstructures closed.

In view of my examinations afloat, the vessel is in condition  
to be towed to a South European Port under reasonable weather  
conditions subject to any further provisions required by the towing  
authorities concerned.

Leslie S.SIMS.

Surveyor to Lloyd's Register.

Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

The Committees of the Society use their best endeavours to ensure that the functions of the Society are properly  
to be understood that neither the Society nor any Member of any of its Committees is under any circumstances  
held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any  
Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its  
any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
