Dear Sirs,

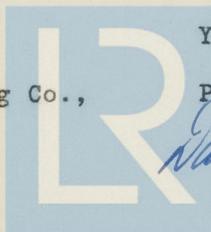

With reference to the Survey now being held on the S.S. "MARIANNE B.", we beg to inform you that, in consequence of the condition of this vessel's water end of the Ballast Pump and the 1st and 2nd rows of ahead blading of the H.P. Turbine Rotor, it will be our duty to recommend to the Committee that the same be renewed before the end of January, 1958 and also the Steam Smothering Arrangement in the Engine Room be modified before the end of August, 1957, to enable it to be used when the deck controlled valve to the fan engine is shut, as provided for in the Rules.

The continuance of the vessel's character in the Society's Register Book is subject to the due fulfilment of this condition.

Yours faithfully,  
The Surveyors,

Per:-

Messrs. Westport Shipping Co.,  
3, St. Helen's Place,
