12th June, 1952.

Dear Sir,

Steamer "PATRICIAN"

With reference to Liverpool Report No.135245 of survey of the refrigerating machinery of this ship, I shall be glad if you will ascertain and forward particulars of the atmosphere and cooling water temperatures which have been omitted from the First Entry Report. I may add that the cooling water discharge and gas in condensers temperatures appear to be incorrect as stated, and I shall be glad to have confirmation that these are in order.

The information regarding drainage of spaces and cooler trays which was requested in the Freeboard Department's letter of the 4th instant should also be forwarded.

Yours faithfully,

Copy sent Fbd.

pro Clerk to the
Classification Committee.

The Secretary,
LIVERPOOL.
