

S.S. "MARI CHANDRIS"

Mr. Economou of Chandris (London) Ltd. telephoned this morning and stated that this ship has experienced main engine trouble and has put into Aden. The Society's Surveyor has been called in but has pointed out that this is an "unclassified" ship.

Mr. Economou asked that we instruct the Surveyor to survey the damage, recommend repairs and issue a further certificate to allow the ship to proceed.

4th August, 1959.
