Attention: Mr. Fermin Piezas
Residente Surveyor

Dear Mr. Piezas:

s.s. "Asia Enterprises"

We enclose herewith, the report of the Chief Engineer regarding the spare gear presently on board the s.s. "Asia Enterprises". We wish to draw your attention to the fact that in addition to this report we have supplied locally twelve lengths of boiler tubes as evidenced by a photocopy of the receipt issued by Eagle Construction Supply. Regarding the other outstanding requirements for spare gear of this vessel, the Owners are arranging for the supply of the same in Japan.

Furthermore, we enclose a copy of the letter we received from NASSCO regarding our request for accommodation in their dry docking facilities at Mariveles. They have accordingly confirmed that firm reservations have been made for us on or about the first week of September 1967. The Owners are therefore requesting that they be allowed to complete all outstanding recommendations during this period in order to comply with the Classification requirements.

We have also been informed by the Owners that replacement of anchor cables will be made as soon as the vessel arrives in Hong Kong during this present voyage. They have also indicated that the necessary Bower anchors will be renewed at the same time.

We hope that these arrangements are acceptable to you and further request that the vessel's Certificates of Class and Loadline will be extended in accordance with these arrangements.

Yours faithfully,

SEA TRANSPORT (PHILIPPINES)
