MM/CB

Dear Sirs,

Steamship "ADELPHOS PETRAKIS"

The Report of the survey carried out by the Society's Surveyors at Rotterdam on the 14th February has now received the consideration of the Committee.

As a result of this survey the class was continued subject, inter alia, to the main sea water circulating pump casing being specially examined and dealt with as found necessary before the end of August, 1966.

I would also take this opportunity to point out that to complete the Main Boiler Survey, which was commenced in February, the starboard main boiler remains to be examined in its entirety and its safety valves adjusted.

Yours faithfully,

pro Classification Manager.
