71, Fenchurch Street, E.C.3.

7th December, 1945.

Dear Sir,

With reference to Glasgow First Entry Report No.70085 on the steamer "EMPIRE CRUSOE", I shall be glad if the Surveyors will confirm the diameter of the screwshaft fitted and state whether the bottom of the boiler is insulated.

I think it well to add that the Surveyors' remarks regarding the electrical installation are noted, and the machinery certificate for the record of LMC 10,45. will be made subject to the two electric generator name plates being altered to show 11 K.W. 100 amps. and their fuse elements changed to 100 amps. rating.

Yours faithfully,

The Secretary,  
GLASGOW.
