

"NUNEZ DE BALBOA"

Mr. Philips/phoned from Bilbao stating Owners desire 2 months postponement of S.S. without a G.E. as the ship is arriving at a South American port on the 12th June 1967 to discharge a cargo and load immediately for a European port and he requested a reply by cable.

It is Submitted that in view of age of ship a G.E. as stated in our letter of 25th inst., be carried out on discharge of present cargo at a South American port.

If the Surveyor is called in promptly to carry out the G.E. it should not inconvenience the loading programme.
