COMPANIA AUXILIAR MARITIMA, Ltda.

Bilbao, 15th June, 1966

Dear Sirs,

s.s. "NUÑEZ DE BALBOA"

We refer to your records in connection with the renewal of the aft steering engine block, Docking and Annual Boiler Survey which are due before the 30th inst.

However, the block is ready to be fitted in this port but we have engaged the ship for a three months voyage, and we would like to carry out the Boiler Survey and the fitting of the block after this voyage and we shall be pleased if you would approach your London Office in order to ask for a postponement until the 15th October when these items can be dealt with at S.E. de C. Naval, Bilbao

X
If you consider necessary to examine the damaged steering engine cyl. block for the postponement, we have to inform you that the ship is due to arrive to Cork (Ireland) on the 1st July and will remain at that port for 5 days approximately.

Yours faithfully,
