Dear Sirs,

CLASSING LETTER

41963 "FIDELITY". As recommended.

It is concluded that the spaces above the fore and aft peaks were examined and found satisfactory and that the D.B. tanks adjacent to the machinery space contained oil fuel and were therefore not examined at this time, but your confirmation is desired.

42037 "SAFINA-E-JAMHOORIYAT". As recommended.

When this vessel was under survey at Dundee between the 4th and 11th March, it was recommended that the starboard boiler should not be used until repairs to butt strap are satisfactorily completed, and it is concluded that this qualification of class may now be deleted, but your confirmation is desired.

Yours faithfully,

The Surveyors,
ANTWERP
