

COPY.

Enclosure.

3rd April, 1928.

Dear Akester,

We are issuing amended preliminary assignments for Messrs. Swan Hunters Nos. 1357, 1359 and 1361, and I am sending herewith a copy of the computation.

The Builders desire to obtain a moulded draught of 25'2"

. You will observe from the pencil notes in the margin of the freeboard computation that the moulded draught obtained is 25'6 $\frac{1}{2}$ ". You will also observe from the computation that the actual freeboards work out to 7'-10 $\frac{1}{4}$ ", and if on completion the Builders' figures are verified this quarter would be dropped, giving a freeboard of 7'-10" instead of 7'-10 $\frac{1}{2}$ " as given on the assignment letter.

I am giving you this information so that you will be in a position to discuss the matter with Mr. Wilkinson should any question be raised.

Yours faithfully,

A.C. Akester, Esq., B.Sc.,
