# LLOYD'S REGISTER OF SHIPPING

UNITED WITH THE BRITISH CORPORATION REGISTER

Port P L Y M O U T H .

13th March, 1959.

### This is to Certify that

D. L. H. COLLINSON

the undersigned Surveyor to this Society did at the request of the Owners Representative attend on board the S.S. "POUKOULET" 7104 tons gross whilst she lay afloat at Dartmouth on the 7th March, 1959 and subsequently, on account of damage stated to have been sustained primary when the Steamer "North Queen" was being moved by the Tugs "ARUSHA" & "LYNCH" from her ~~lay-up~~ berth in the River Dart, at which time the "North Queen" fell against and disturbed the moorings on the above vessel, causing her subsequently to go ashore during the night of the 5/6th March, 1959.

The vessel was examined on the 7th March, 1959 whilst ashore and found to have her stern on the ground and her bow afloat, at which time the vessel's bow was weaving slightly with the tide and wind.

All tanks in the after part were sounded and found to be making no water. The bilges and the aftermost cargo tanks were also examined and found to be free of water and so far as could be seen then, there was no structural damage.

It is considered however, that the vessel should be placed in dry dock for further examination before she loads a cargo.

*D. L. H. Collinson*  
 .....  
 Surveyor to Lloyd's Register of Shipping.
