filled in at Head Office.

Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

must be reported in the terms of the Rules. The nature and extent of Examinations (if any) must be stated in detail, the parts examined and their condition being indicated. For Annual, Special or other Condition Surveys the Summary of Condition and Condition on the back of the Report is to be carefully completed and if necessary in the body of the Report. Outstanding items to complete the Survey are summarised at the end of the Report. The reasons for Repairs must be stated on account of Damage (the alleged cause of which must be stated) should be separated repairs due to other causes, and, besides being detailed in the body of the Report, be summarised in the form below. When, at a Special Survey, the Shell and Deck is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain are replaced or retested the necessary particulars are to be given on Report 8(Eq) to be attached to this Report.

Was a damage report made by anyone else? If so, by whom? **Salvage Surveyor**

INFORMATION AND REPAIRS AS PER RULE FOR **Damage** stated to have been sustained primary when the Steamer "North Queen" as being moved by the Tugs "ARUSHA" and "LYNCH", from her lay-up berth in the River Dart, at which time the "North Queen" fell against and disturbed the moorings on the above Vessel, causing her subsequently to go ashore during the night of the 5/6th March, 1959.

The vessel was examined on the 7th March, 1959 whilst ashore and found to have her stern on the ground and her bow afloat, at which time the vessels bow was weaving slightly with the tide and wind.

All tanks in the after part were sounded and found to be making no water. The bilges and the aftermost

large tanks were also examined and found to be free of water and so far as could be seen then there was no

structural damage.

It is considered however, that the vessel should be placed in dry dock for further examination before she loads a cargo.

Has Interim Certificate been issued?

### GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS

State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:—"to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1,55"; or "to remain as Classed and to have record of drydocking 1,55, and the notation of S.S. . . . 1,55".

This vessel, as far as now seen, is eligible in my opinion to remain as Classed without fresh record of survey, subject to dry docking for further examination before loading a cargo.
