Bombay, 26th FEBRUARY 1952.

Ansd.....

Dear Sir,

I beg to acknowledge receipt of your letter of the 22nd instant with reference to the Basset type Trawler "Calcutta", now "LEELAVATHI" which contained remarks regarding cables and anchors. Indira

It is noted that the vessel has been classed IOO AI Coasting Service Burma, East Pakistan, Ceylon and Indian Ocean " with the exception of the equipment and the load line Certificates will be sent to the Owners together with a letter advising them of the Committee's requirements regarding equipment.

A request will also be sent to the Madras Surveyor to confirm that the conditions of assignment detailed in your letter to him dated 9th instant have been complied with.

I regret to say there are no records at Bombay about the chain cable supplied to Basset type Trawlers. I have learned, however, from good authority that these cables and anchors are of American manufacture and were supplied to all builders of these vessels by the Admiralty Stores Department at Portsmouth without any certificates. It may be, therefore, that this Department could supply information about these anchors and cables. Meanwhile Mr. Cooper at Madras will be asked for any advice he has in this connection and to make arrangements for the anchors to be weighed.

The Secretary,

London.

I am, Dear Sir,
